

# Quality Improvement

*Information for a Healthy Oregon*

The purpose of the *Partner for Quality Care* initiative is to improve the quality of care in Oregon. To support medical groups and clinics, the initiative offers quality improvement assistance, free of charge.

## **What *Partner for Quality Care* offers:**

- Review and interpret data reports with clinic administrators
- Identify areas for improvement in clinic processes or systems
- Offer effective interventions and tools, tailored to individual clinic sites
- Support successful implementation of quality improvement initiative(s)
- Work with electronic or paper records
- Meet with physician leadership, as needed

## **Goals**

Help clinics improve their capacity for:

- System process improvement
- Clinical quality improvement

## **Background**

*Partner for Quality Care: Information for a Healthy Oregon* is committed to improving health care in Oregon. We are a collaborative initiative managed by the Oregon Health Care Quality Corp that brings together health plans, purchasers, the public, and primary care practitioners to develop a system to measure and improve health care quality in Oregon. The initiative embraces a three-pronged approach: measure the quality of health care; help practitioners use quality measurement information to improve systems of care; and educate the public about their role in contributing to quality health care.
